

TOBACCO TRUST IS RENOUNCED BY PAYNTER

Kentucky Senator in Speech Today Declared that This Giant Combination is a Commercial Pirate, Destroying All Competition in Manufacture and Sale of Tobacco.

He Said He Advocated Change in the Law in Behalf of the Farmers, Their Laborers and Tenants in Order that They Might Free Themselves from the Present Monopoly that is Crushing the Life Out of Their Business.

Washington, May 12.—Denouncing the tobacco trust, Senator Paynter of Kentucky today in the Senate said:

"The facts show that the tobacco combination is a commercial pirate, carrying a black flag, dealing death and destruction to all competitors in the manufacture and sale of tobacco, and reducing those who grow it, to penury and want. The death struggle of the existing competitors has not caused it to hesitate; nor have the tears and sufferings of the tenants, white and black, who produce the article upon which it feeds and fattens, moved its compassions.

"Sensors, you now have an opportunity to compel it to dip its flag to one and a half millions of tobacco growers and to grant to them a chance to have their labor rights honored. Will you do it?"

He said he spoke for the farmers and for their laborers and tenants who are engaged in raising tobacco and who desire to "free themselves of the present monopoly which is crushing the life of their business and impoverishing the tollers engaged in it."

If the tobacco growers had been prosperous, he continued, there would have been no demand for a change in the law. "But the evidence shows," he continued, "that they are in an unfortunate condition; that their business has not been prosperous; that it costs six cents per pound to produce tobacco, it is bringing three and one-half cents per pound; that the tobacco market has been destroyed; that practically there was but one purchaser for their tobacco. At any rate only one purchaser fixed the price."

"It shows that the competitive markets in Italy, Spain, France and the Netherlands had been destroyed by the action of the tobacco trust. The countries in refusing to admit any tobacco except that which was purchased by them, that the trust had purchased for what is called the 'Regal' contractors and for the American Tobacco Company; and that the Great Britain market was the only one in which the tobacco trust was able to sell its tobacco at the price at which it purchased it in Kentucky."

"The tobacco growers believe that they are in the grasp of a conscienceless monopoly which is wrongfully destroying their homes and taking from the mouths of their families the bread which has been earned by incessant toil."

In support of the statement that the American Tobacco Company has destroyed the competitive market in this country Senator Paynter gave a history of its absorption of the competing companies in this country, and Great Britain and showed how it controlled, directly and indirectly, the tobacco trade of the world. He said:

"There are many other transactions of the tobacco combination that mark its triumphal march through Kentucky over all its competitors. The combination of the facts showing its achievement staggers credulity, appals the imagination and creates in the mind of the thoughtful a sense of the magnitude of the danger that may come to the people by combination and misuse of colossal resources."

Senator Paynter next referred to the tobacco troubles in Kentucky and expressed the hope that the enactment of the proposed law would remove the cause which provoked them, a result much to be desired by all law-abiding citizens. In conclusion Senator Paynter said:

"This great government of ours, because of the loss of a paltry sum in revenues, cannot afford to disregard the demand of one and a half million of people who are dependent upon the success of tobacco growing for a livelihood."

He said he believed that the enactment of the proposed law would remove the cause which provoked them, a result much to be desired by all law-abiding citizens. In conclusion Senator Paynter said:

"This great government of ours, because of the loss of a paltry sum in revenues, cannot afford to disregard the demand of one and a half million of people who are dependent upon the success of tobacco growing for a livelihood."

BOY FALLS FIFTY FEET AND LIVES

Alfred Spinner Was Shingling Roof of Step Father's House When He Lost Footing.

Emergency Hospital and Ambulance Have Busy Day—Fireman is Seized With Cramps—Workman Drops at His Work—Morehouse Has Muscular Cramps.

Alfred Spinner, 16 years old, fell 50 feet, this morning from the roof of the new house at Raleigh avenue and Wilson street, Bridgeport. The window frame on his way, and sustained only a broken shoulder. Allen Hall step-father of the boy, is building the house. Alfred was on the roof, laying shingles. His foot slipped, and he fell over the eaves. The window frame was completely demolished and torn from the wall. The boy was hurled to Bridgeport hospital.

It was a busy day for the ambulance, and for the Emergency hospital doctors.

Senator Luther Talks in Vain in Support of His Amendment Regarding Stock Issues.

Senate Listens to Him Patiently and With Fine Attention, But Votes Overwhelmingly Against Him—Adjournment May Be About Middle of July.

Hartford, May 12.—At the opening of the Senate's session today, Senator Searis offered a resolution raising a joint committee of two members of the Senate and five of the House to make arrangements for the joint convention of the two Houses on May 17th to listen to the tobacco trust. This passed by a vote of 10 to 2.

The House promptly and unanimously passed the resolution. The committee will be announced later.

The Senate session was a short one and taken up principally with a strong argument by Senator Luther in support of his amendment to the bill for the "Tollard Street Railway Company, providing that its stock be issued at par and paid for in cash or its equivalent."

Although the bill was passed by a vote of 10 to 2, the House refused to act on this amendment and passed the bill without it.

The House of Representatives in today's session continued the practice indulged in so largely of late, of placing the bill on the calendar for a day on which there is likely to be a prolonged discussion but just before the close of the day's session, the Republican floor leader, Burton of Greenwich, got through a motion to make the foot of the calendar the order for the day for next Wednesday at 11:30.

He said he believed that the enactment of the proposed law would remove the cause which provoked them, a result much to be desired by all law-abiding citizens. In conclusion Senator Paynter said:

"This great government of ours, because of the loss of a paltry sum in revenues, cannot afford to disregard the demand of one and a half million of people who are dependent upon the success of tobacco growing for a livelihood."

PLUMBERS HOLD 19TH ANNUAL CONVENTION

Sale of Plumbers' Goods to Consumers Is Now Almost Stopped.

And Plumbers' Goods Do Not Appear on Counters of Department Stores—Other Advantages of Association Brought Out in President's Report—Mayor Lee Makes Address.

The nineteenth annual meeting of the Master Plumbers' Association of Connecticut opened this morning in the ball room of The Stratford with about 175 members in attendance. President Arthur M. Brown of Norwich presided. The session was called to order by President George E. Scofield, of the Bridgeport Association, who introduced Mayor Lee. The mayor, in his address of welcome, said in part: "I never objected to a plumber's bill. When you see the places where a plumber has to go and the work he has to do you have to admit that if there is any workman who earns his money it is the plumber. But I would say to you always do good work, for if there is anything that is essential for good health it is good plumbing work. Since the agitation against the Great White plague has become a most important issue we have learned more and more that poor plumbing which allows gases to escape menaces the occupants of the building where the bad plumbing is located. A few years ago we had a rendering establishment in this city which was a nuisance was created by pouring the refuse into the ground. The plant was connected with the sewer to abate the nuisance. What was the result? Everyone living in the houses connected with the sewer was driven out of doors by the stench. They found that their sewers were not trapped and that it had required the connection of the rendering plant with the sewer in order that they might learn that sewer gases had been escaping into their homes for years."

"Plumbing has advanced greatly along sanitary lines so that the mansions of the wealthy built 20 and 35 years ago do not have sanitary conditions that compare with the homes of the people of moderate means of today. I hope when you gentlemen figure a job on your bill that you will figure a job for the poor and the people of moderate means of today."

"In behalf of the city I welcome you to Bridgeport and extend to you the freedom of the city."

President Brown responded to the Mayor's address.

The annual report of the President of the Association, which followed the appointment of committees to deal with the affairs of the association.

During the year the executive board was called upon to deal with a number of cases of bad plumbing in connection with the National Association of Plumbers held in Boston, July, 1908.

Reference is made to the fact that the committee on legislation has prepared in co-operation with the Journal of the Association a bill to regulate plumbing in the State.

A section of the report which will interest the general public is as follows: "It wishes now to bring to your notice in a brief manner the value of the Association. In the first place, let us take up the measure of trade protection. This is afforded to our members and which to a great extent prevents the promiscuous sale of plumbing goods direct to the consumer. This has also a tendency to keep the prices of plumbing materials low and to keep the quality of the work high."

The membership of the new council will be recruited largely from residents of Fairfield and Southport. The new council will be organized at a meeting to be held in Fairfield, June 1st, at 8 o'clock. The new council will be organized at a meeting to be held in Fairfield, June 1st, at 8 o'clock.

CLANCY WALKED FROM HIS DEATH TO HIS DEATH

Was Guest at Wedding Reception With His Sweetheart, Miss McPadden.

Fell Down Cellar Stairs in New House Being Constructed by Host—Skull Was Fractured at Base and Death Instantaneous—Was Son of Mrs. Ann Clancy Who Fought Hydraulic Company.

The irony and the uncertainty of life were illustrated last night in the death of Joseph Clancy, guest at a wedding reception which he was attending with his sweetheart, Miss Mary McPadden, when his life was destroyed by a fracture at the base of his skull sustained by an accidental fall down a pair of cellar stairs in a new house being constructed for Peter Noonan of 315 Madison avenue, who with his wife were entertaining the friends of Mr. and Mrs. Hugh Burns, following their marriage, which had taken place in St. Patrick's church last morning.

The party was a merry one. Joseph Clancy was especially merry and his jokes and gay witticisms, in which his sweetheart shared, kept the friends in a happy mood. It was about 11 o'clock and the talk turned to the new house which Mr. Noonan was building. There was a chorus of "show it to us" from the young women, and Mr. Noonan granted the request. With a lighted lamp, he accompanied a dozen young people, among whom were Mr. Clancy and Miss McPadden. When they had visited all of the rooms, and every part of the house except the cellar, suddenly suggested that the cellar be visited before this was agreed upon, but finally the party moved toward the cellar stairs. At the foot of the stairs, the body of Clancy was found. He was dead. It was surmised that he had gone ahead of the party, while the others were still in the progress, and had tripped and fallen.

The shock of this tragedy reduced the young women to tears, and ended the party. The body was removed to the ambulance surgeon, death having ensued instantly.

Medical Examiner F. B. Downs was called and made a finding in accordance with the facts.

Clancy was 24 years old. He was a member of the Bridgeport Aerie of Eagles. He had been subject in the past to a vertigo for which he had been treated in a sanitarium, but it is not believed that his fall was due to a recurrence of the attacks.

Joseph Clancy was the son of Mrs. Ann Clancy, a well-to-do widow, who recently figured prominently in a contest with the Bridgeport Hydraulic Company, which she terminated by the sale of the property to the company. She owns the saloon at Railroad and Iranistan avenues.

The daughters and relatives of Mrs. Peck in this vicinity deny the suicide story. Mrs. Peck is a widow and lives at 441 Manhattan street. The family lived on Atlantic street, in this city where Mr. Peck owned a neat and attractive home.

There are three daughters in the family. Mrs. Anne Warner of Springfield married several years ago. Mrs. Louise lived with her mother at the Manhattan street home. Louise was preparing for her marriage, which was to take place in early September and in which the mother was much interested.

Mrs. William Fryer and Mrs. David L. Rhodes of Stratford are nieces of Mrs. Peck. They were notified of the death of their aunt this morning. Mrs. Rhodes was preparing to leave for New York when she learned of the death of her aunt. Mrs. Peck had many relatives in this vicinity. Among them is Mrs. Abram Bradley of Saugerties.

SUBWAY TRAIN BRINGS DEATH TO MRS. PECK

Witnesses Allege Deliberate Suicide, But Friends Say Fall Resulted from Mistake Caused by Defective Vision.

Mrs. Peck Was 71 Years Old and Widow of Former Well Known Bridgeport Merchant—Mrs. William Fryer and Mrs. David L. Rhodes of Stratford Are Nieces.

The tragic death of Mrs. Mary E. Peck in the subway station at 15th street and Lenox avenue, New York, yesterday has brought grief to many of this city who were well acquainted with the deceased. Mrs. Peck was formerly a resident of this city. Mrs. Peck was 71 years of age. She stood on the platform of the subway station yesterday morning, apparently intent on watching for the arrival of the south bound train. She was on the way to visit a friend, Mrs. Lacey in Brooklyn, whom she frequently visited. As the train which she was waiting to take approached, Mrs. Peck either fell or threw herself in front of the car, and was crushed to death. Witnesses of the accident assert that the woman threw herself in front of the train. Her friends deny that any such premises are tenable. The remains were identified a short time later by her daughter, Miss Hattie Peck, who read the account of the accident in a newspaper and called at the morgue to investigate.

Mrs. Peck was the widow of Charles L. Peck, at one time prominent in the business life of the city. Something over 15 years ago the family removed to New York where Mr. Peck was engaged in the department store of Lord & Taylor. After his death the family had been in New York for some time. The family lived on Atlantic street, in this city where Mr. Peck owned a neat and attractive home.

There are three daughters in the family. Mrs. Anne Warner of Springfield married several years ago. Mrs. Louise lived with her mother at the Manhattan street home. Louise was preparing for her marriage, which was to take place in early September and in which the mother was much interested.
